

Environmental Data Science: Homework #3
Loading and filtering environmental data, & plotting basic timeseries
Due: Before Class on 9/16/26

Ozone Analysis

Using the same dataset we explored in class (EPA AQS):

- i. Plot a timeseries for daily average hourly O₃ using the **Seaborn** library.
- ii. Answer the following questions:
 - a. When is O₃ highest at this monitor?
 - b. How many days have O₃ concentrations above 35 ppbv?
